welcome to the 3 books to know series our idea is to help readers learn about fascinating topics through three essential and relevant books these carefully selected works can be fiction non fiction historical documents or even

biographies we will always select for you three great works to instigate your mind this time the topic is capitalism an inquiry into the nature and causes of the wealth of nations is the magnum opus of the scottish economist and moral philosopher adam smith published in 1776 the book offers one of the world s first collected descriptions of what builds nations wealth and is today a fundamental work in classical economics by reflecting upon the economics at the beginning of the industrial revolution the book touches upon such broad topics as the division of labour productivity and free markets the protestant ethic and the spirit of capitalism written by max weber a german sociologist economist and politician it is considered a founding text in economic sociology and sociology in general weber wrote that capitalism in northern europe evolved when the protestant ethic influenced people to engage in the secular world developing enterprises and engaging in trade and the accumulation of wealth in other words the protestant work ethic was an important force behind the unplanned and uncoordinated emergence of modern capitalism north and south is a social novel published in 1855 by english writer elizabeth gaskell north and south uses a protagonist from southern england to present and comment on the perspectives of mill owners and workers in an industrialising city the novel exposes the complexity of labor relations and their impact on mill owners and workers this is one of many books in the series 3 books to know if you liked this book look for the other titles in the series we are sure you will like some of the topics

this is an ambitious original and complex treatment of key aspects of contemporary capitalism it makes a major contribution because it profoundly destabilizes the scholarship on globalization the so called new economy information technology distinct contemporary business cultures and practices saskia sassen author of globalization and its discontents nigel thrift offers us the sort of cultural analysis of global capitalism that has long been needed one that emphasizes the innovative energy of global capitalism the book avoids stale denunciations and offers instead a view of capitalism as a form of practice karin knorr cetina professor of sociology university of konstanz germany capitalism is well known for producing a form of existence where everything solid melts into air but what happens when capitalism develops theories about itself are we moving into a condition in which capitalism can be said to possess a brain these questions are pursued in this sparkling and thought provoking book thrift looks at what he calls the cultural circuit of capitalism the mechanism for generating new theories of capitalism the book traces the rise of this circuit back to the 1960s when a series of institutions locked together to interrogate capitalism to the present day when these institutions are moving out to the pacific basin and beyond what have these theories produced how have they been implicated in the speculative bubbles that characterized the late twentieth century

what part have they played in developing our understanding of human relations building on an inter disciplinary approach which embraces the core social sciences thrift outlines an exciting new theory for understanding capitalism his book is of interest to readers in geography social theory anthropology and cultural economics
